## PEAKS N PINES BREWING COMPANY SETS SIGHTS ON FOUNTAIN

**[FOUNTAIN, COLORADO, February 28, 2019]** Following an extensive planning and research period, Peaks N Pines Brewing Company is excited to announce plans to open a second location in Fountain, Colorado. In partnership with Fountain Urban Renewal Authority (FURA), Peaks N Pines has monitored the City of Fountain's growth and secured occupancy at 212 West Illinois Ave. in downtown Fountain. Plans for the future manufacturing facility will include a 1,200-square-foot taproom, 450-square-foot events room, and 800-square-foot pet-friendly patio.

Peaks N Pines was established in 2015 on Tutt Blvd. and has maintained a reputation of creating quality craft beer in a family-friendly community environment. With craft breweries increasingly becoming a gathering place for the neighborhoods they serve, Peaks N Pines hopes to bring a community focal point to a growing Fountain population. Peaks N Pines plans to continue its commitment to community growth and involvement in Fountain and Colorado Springs, including an ongoing partnership with Fountain Creek Brewshed Alliance.

The 212 West Illinois Ave. location will feature a 10BBL brewhouse with 20BBL fermenting capabilities and is being manufactured by Forgeworks in Ridgeway, Colorado. The Fountain location will serve as Peaks N Pines' primary brewing site, as the company plans to keep and renovate its existing Tutt Blvd. location in Colorado Springs. Peaks N Pines is planning a late Spring, early Summer 2019 opening in Fountain.

*Peaks N Pines Brewing Company is a veteran-owned craft brewery in Colorado Springs and has served the Pikes Peak Region since its opening in November of 2015.*
